**A Message from Town Supervisor
JOHN VENDITTO**

Initiated in 1986, the Town of Oyster Bay S.T.O.P. program provides Town residents with a safe disposal means for household substances which, if discarded improperly, pose a threat to our groundwater.

Since the program's inception, 14,401 55-gallon drums of hazardous chemicals have been collected and more than 96,553 households have participated.

In 2004, the Town initiated the first regularly scheduled electronic waste recycling collection on Long Island. These collections take place in conjunction with the S.T.O.P. program.

Please keep this brochure handy for future reference. And, the next time you clean out your home or garage and find unwanted remnants of household hazardous substances, or items such as computers and keyboards, printers, cell phones, or VCRs, store them in a safe place and bring them to the next S.T.O.P. or e-waste recycling collection.

Thank you for helping protect Oyster Bay's environment through responsible waste disposal.

Town Hall South, 977 Hicksville Rd.

SYOSSET - Sunday, Nov. 15
T.O.B. Dept. of Public Works Garage,
150 Miller Place

The S.T.O.P. program is partially funded
by grants from the New York State Depart-
ment of Environmental Conservation.

Commonly used household substances can contaminate your water supply

If you improperly dispose of products such as waste oil, oven cleaner, paint thinner, spot remover or photo chemicals you may be contaminating your own water supply.

Long Island depends upon an underground aquifer system for its water supply. Anything poured on the ground or put into cesspools, storm drains or recharge systems can work its way down into the aquifer.

The S.T.O.P. Program provides a safe method of disposal for hazardous household wastes

Residents are urged to bring all hazardous household wastes to a S.T.O.P. collection. A schedule of collection dates and locations is included in this brochure.

Please remember to:

- Store wastes safely and securely until the next S.T.O.P. collection in your area.
- Take care not to spill wastes when transporting them to the collection site. Wear rubber gloves when handling wastes.

What you *may* bring to S.T.O.P. collections *(partial listing)**

- Most pesticides & insecticides
- Waste motor oil & antifreeze
- Brake & transmission fluids
- Solvents
- Enamel, lead-based & latex paints
- Drain & oven cleaners
- Photo chemicals
- Spot removers
- Wood preservatives
- Automobile tires *(with or without rims)*
- Automobile batteries
- Small aerosol cans
- Consumer batteries *(AAA, AA, C, D or 9 volt)*
- Outdoor gas grill propane tanks
- Compact fluorescent bulbs

**Town reserves right to limit quantities*

What you *may not* bring to S.T.O.P. collections

- Explosives*, fireworks
- Radioactive materials
- Infectious materials *(medical waste)*
- Unlabeled materials *(unless identifiable by our contractor)*

**Flares during special program event only*

You don't have to store used motor oil between S.T.O.P. collections

New York State Law requires all service stations that perform oil changes and major retailers to accept up to five gallons per person per day of waste oil **at no charge**. Also, residents may bring up to 1-1/2 gallons of used motor oil every 30 days to the Town of Oyster Bay waste oil collection sites listed below. All sites are open dawn to dusk, seven days a week.
